TEXL60	2.36	3.82	10.58
TEXL66	2.60	4.21	12.43
TEXL73	2.87	4.65	13.21
TEXL85	3.35	5.35	14.85
TEXL93	3.66	5.87	16.39

**Texlite** is a continuous tubular sleeve made of polyester fibers. Specially treated in order to withstand an abrasion resistance of over 200,000 cycles (according to ISO 6945). **Texlite** is a good anti diffusion sleeve and offers very good safety features at a more convenient price. Ideal on agricultural machinery.

**Standard Color:** Black - Other colors available upon request

**Wall Thickness:** .059" +/- .008"

**Standard Print:** TEXLITE - Possibility of custom printing and screen-print in colors.

**Temperature Range:** -36°C to +100°C (-33°F to + 212°F)

UV Resistance certified according to EN13758-1  
 MSHA approval for mining applications IC207/07  
 Complies with UN-EN 1501-1, EN 982, EN 3457
